Cheddar Woods Holiday Park

Cheddar
Somerset

The Client

Cheddar Woods is a brand new lodge park set on an elevated sloping hill looking down on a picturesque reservoir and rolling Somerset hills, just a short drive from the famous Cheddar Gorge. Cheddar Woods is the newest park to be launched by Darwin Holiday & Leisure Parks, who have transformed a former tenting and touring park to provide a top of the range holiday location, which will be open year round for lodge holidays.

The Project

Charles Evans Shopfitters were contracted by Midas Construction to supply and fix joinery and furniture items, including reception counters, a bar and back-fitting, timber wall cladding and slatted ceiling, vertical ash feature wall for the spa, Birch tree trunk timber wall, shelving and display units for the farm shop.

Customer Feedback

Could you pass on my thanks to your firm & the team of lads that installed Cheddar Woods, really impressed with their work quality, attention to detail and hard graft!!! Those guys deserve a rise!

Steve Lomax
NBDA Architects

I would like to say a big thank you to you and your team for the lovely shop fitting at Cheddar Woods that looked superb. We appreciated your attention to detail, and that you were able to interpret what was wanted using your shopfitting expertise.
