

Charles Evans Shopfitters Ltd

Established 1888

Use our experience to your benefit

case study

Le Bistrot Pierre

Old Brewery Quarter
Cardiff

The Client

Le Bistrot Pierre own an expanding group of restaurants, each with their own individual design and character. The company pride themselves on providing quality French cuisine in relaxed surroundings. Le Bistrot Pierre used the experience of Charles Evans Shopfitters to fit-out their 11th restaurant in Cardiff.

The Project

Charles Evans Shopfitters managed the project as the Main Contractor on the Cardiff site. The pewter clad bar, marble topped waiter stations, dining tables, wine storage cupboards, signage, planters were manufactured at the Charles Evans factory in Liverpool. The supply of sub-contracted elements such as the banquette seating and the shop-front were project managed by Charles Evans and the installation was completed by one of Charles Evan's site teams, in conjunction with other specialist trades selected from Charles Evans' tried and trusted supplier base.

Customer Feedback

"Charles Evans are an integral part of our build team and not only offer fit outs to a high standard, but offer experience and advice to the project team from concept to completion. I very much see them as our partner than our supplier."

Robert Beacham,
Founder Director,
